

Firefox:

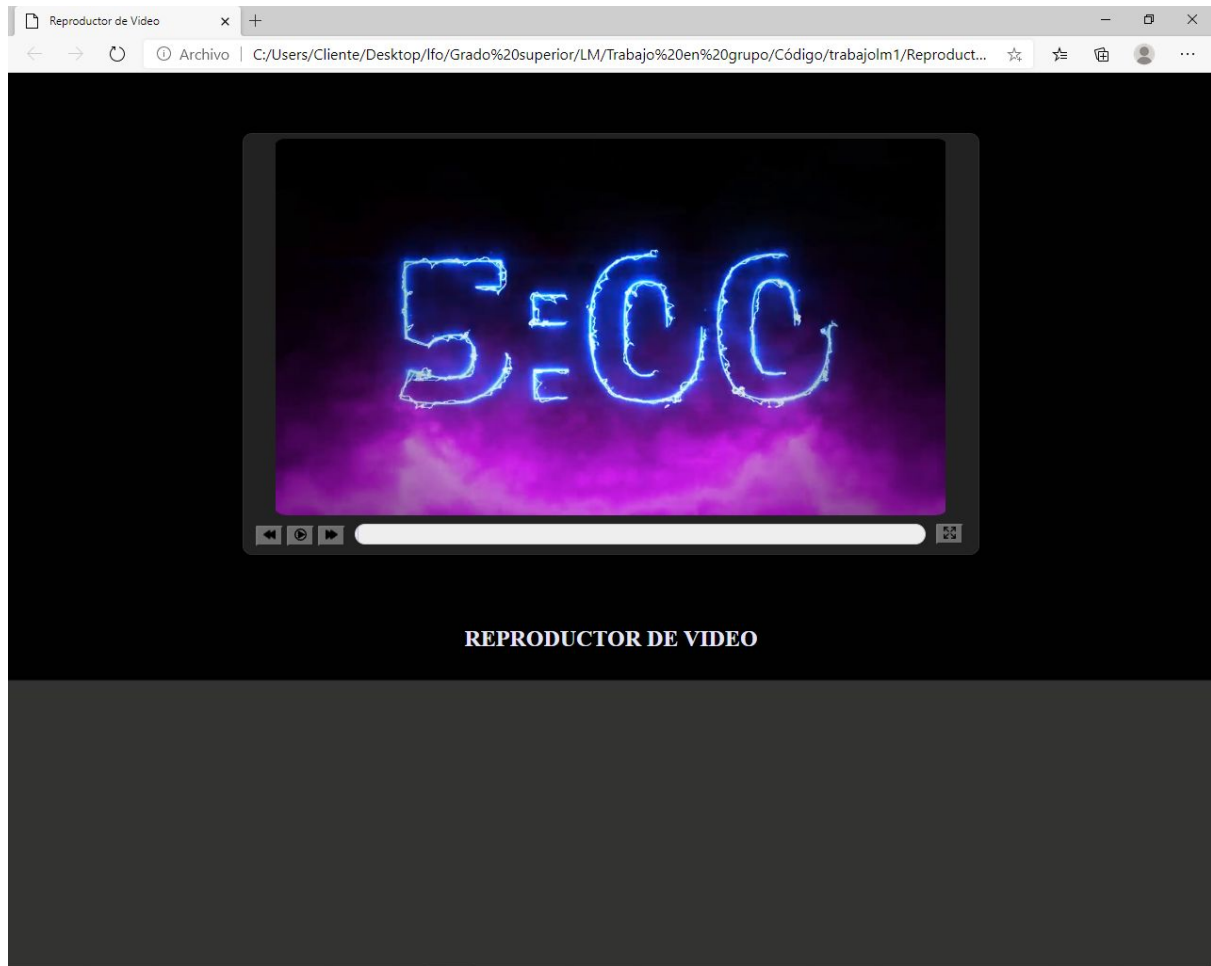

Chrome:

Opera:

Edge:

Safari:

Nos ha sido imposible poner las capturas en Safari ya que ninguno de los componentes del grupo tenemos un MAC y no existe ninguna versión para windows.

Validación W3C**HTML:**

El único error que detecta me parece que es absurdo de arreglar en este caso.

1. **Warning** Section lacks heading. Consider using `h2` - `h6` elements to [add identifying headings to all sections](#).
From line 10, column 3 to line 10, column 28

```

/><br/>
<section id="reproductor">
</v

```

Document checking completed.

CSS:

El código css no contiene ningún error.

Document checking completed. No errors or warnings to show.

Javascript:

Como se puede apreciar son errores de formato (y que no me reconoce las variables declaradas en html)

1	2	1	Missing 'use strict' statement. maximo = 600;
2	3	1	Expected 'medio' at column 5, not column 1. medio = document.getElementById('medio');
3	3	9	'document' was used before it was defined. medio = document.getElementById('medio');
4	4	1	Expected 'reproducir' at column 5, not column 1. reproducir = document.getElementById('reproducir');
5	4	14	'document' was used before it was defined. reproducir = document.getElementById('reproducir');
6	5	1	Expected 'barra' at column 5, not column 1. barra = document.getElementById('barra');
7	5	9	'document' was used before it was defined. barra = document.getElementById('barra');
8	5	42	Unexpected character '(space)'. barra = document.getElementById('barra');
9	6	1	Expected 'progreso' at column 5, not column 1. progreso = document.getElementById('progreso');
10	6	12	'document' was used before it was defined. progreso = document.getElementById('progreso');
11	7	1	Expected 'reproducir' at column 5, not column 1. reproducir.addEventListener('click', presionar, false);
12	7	38	'presionar' was used before it was defined. reproducir.addEventListener('click', presionar, false);
13	8	1	Expected 'barra' at column 5, not column 1. barra.addEventListener('click', mover, false);
14	8	33	'mover' was used before it was defined. barra.addEventListener('click', mover, false);
15	11	1	Missing 'use strict' statement. if (!medio.paused && !medio.ended) {
